

AlmogCity

This is a dialogue booklet, written for a school event, called "AlmogCity".

The event is meant to promote the Speaking skill in English (the Elementary school). The booklet includes nine dialogues that relate to nine Places that each city can have: School, Doctor's office, Library, Zoo, Museum, Shop, Cinema, Park and Restaurant. These topics provide children with useful vocabulary, needed for every day English. The event will be organized in the school's yard and will include the stations that match the topics of the dialogues. The pupils will "walk" from station to station. They will have to use their English at the stations (the dialogues that are going to be taught throughout the year). Each station will also have an activity to execute for it to be interesting and motivating. In addition, the stations will present the pupils' products from the English lessons.

Welcome to our amazing AlmogCity!
